

Interaction Report

Report ID: 1
Date Produced: 14 November 2016

Hepatitis Treatment**Co-medications**

Daclatasvir	Cannabis
Sofosbuvir	Cocaine
	Morphine

This report lists the summaries of potentially clinically significant interactions (i.e. "red" and "amber" classifications for the drugs in the table above).

Interactions with a "green" or "grey" classification (i.e. no clinically significant interaction or no clear data) have been checked and are listed at the end of this report, but summaries are not shown. Please note that some co-medications with a green classification may require dose adjustment due to hepatic impairment.

For full details of all interactions, see www.hep-druginteractions.org.

Description of the interactions

No clinically significant interaction expected (GREEN)

Sofosbuvir + Cocaine

Sofosbuvir + Morphine

Sofosbuvir + Cannabis

Daclatasvir + Cocaine

Daclatasvir + Morphine
